

SCIENTIFIC ASSISTANTS (m/w/d) in Vienna / Austria for 40 hours a week

Virusure is a biotech company specializing in virus & prion safety testing of biopharmaceuticals. We are a GLP/GMP certified control laboratory that offers services in the area of pathogen safety to the bio-pharmaceutical industry. In order to strengthen our team in Vienna we are looking for highly motivated candidates with biotechnological background and knowledge about GMP and GLP to support the **GLP virus and prion safety testing group** as scientific assistants:

GLP virus & prion studies department -Tasks & Responsibilities:

Our GLP group performs down-scaled process steps, such as pH, Solvent/Detergent treatments, chromatography, nanofiltration, to evaluate their capacity to inactivate/remove prion or viruses.

- Planning and performance of cell culture assays and western blot assays.
- Support to Study Directors for the performance of the process steps, data analysis, interpretation, and reporting

According to experience and performance, development possibility as Study Director:

- Conduct of GLP virus and prion studies: communication with clients from the design until completion of the study including the preparation of study plan, lab protocols and final report.

General Responsibilities:

- Strong focus on quality by ensuring GDP compliance.
- Report to superior and Quality assurance
- Creation and administration of GLP and GMP compliant laboratory documentation as well as the creation of SOPs
- General routine laboratory activities (e.g. check-in of deliveries, general cleaning tasks, support in equipment maintenance ...)

Your Profile:

- Education in Biotechnology, Biology or related Life Sciences fields (HTL, MTA, University or FH up to B.Sc. or M.Sc.)
- GLP/GMP knowledge and experience is an advantage
- Experience in the bio-pharmaceutical industry is an advantage
- Accuracy, diligent, organized and proactive
- Very good knowledge of English and good IT skills
- Very good communication skills.
- Willingness to work with infectious biological agents (i.e. viruses or prions)
- Willingness to wear personal protective equipment when handling biological agents, chemicals, etc.
- Willingness to learn, flexibility, team spirit.
- Experience in biomolecules purification techniques, downstream processes such as chromatography (e.g. AKTA), filtration, precipitation steps is an advantage

VIRUSURE

Quality is no coincidence

What we offer:

- Full-time position (40 hours) in an established company with flat hierarchies and short decision-making paths
- A high degree of personal responsibility and a large amount of freedom to make decisions
- A lot of freedom for personal and professional development and training
- A dynamic, friendly and exciting growing environment
- Regular team and company events in a relaxed atmosphere
- Salary according to experience
