

NovoArc GmbH is a deep-tech company offering a unique and patented tetraether lipid-based technology which protects APIs against degradation and boosts their efficacy. Our continuously growing team is the key to our success and to our technological advances. We offer interesting challenges in an innovative and ambitious environment with flat hierarchies and an excellent working atmosphere within a highly motivated team. www.novoarc.at

Lab Technician Bioprocess Engineering (f/m/d)

Full-time Employment in Bioreactor Cultivation/Analytics/Product Processing

We are looking for a new team member in the field of bioreactor cultivation, associated analytics as well as product processing. You assume responsibility in the daily lab work and carry out experiments in lab- and pilot scale. Thanks to your engagement the production of our lipids runs smoothly in a consistently high quality. As a motivated and reliable team member, you work in close collaboration with the cultivation team while independently and goal-oriented carrying out your assigned tasks.

Your Responsibilities

- Execution and post-processing of experiments and production runs
- Preparation, set-up and sterilization of devices and equipment
- Preparation of media and sampling
- Processing of samples and preparation for subsequent analysis and downstream steps
- Process monitoring and documentation

Requirements

- Scientific/technical background in the field of chemistry, biotech, pharma or similar
- Several years of professional experience is beneficial
- Experience in sterilization technology and cultivation of microorganisms is beneficial
- High motivation combined with high social skills
- Strong oral and written communication skills in English (min. B2); German skills are beneficial
- Ability to work independently

Your Benefits

- Excellent working atmosphere in a highly motivated team
- Research-driven development in a future-oriented area
- Flexible working hours
- Low hierarchies with fast decision processes
- Versatile daily tasks

Send your application to office@novoarc.at. The search will be kept open until we find the right candidate.
